

ADITYA CHAUHAN

Noida Sector - 45, Uttar Pradesh | +91 9873316546 | adityachauhan0520@gmail.com | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Integrated B.Tech + M.Tech Computer Science student with strong foundations in data structures, algorithms, and software design. Experienced in building scalable, full-stack AI-integrated applications using modern frameworks. Proficient in Java, Python, and JavaScript with hands-on exposure to distributed system concepts, RESTful API design, and end-to-end software development. Passionate about solving complex engineering challenges and contributing to large-scale systems.

EDUCATION

Noida Institute of Engineering and Technology (NIET)

June 2022 – June 2027

Integrated B.Tech + M.Tech in Computer Science and Engineering | Greater Noida, Uttar Pradesh

TECHNICAL SKILLS

Languages: Java, JavaScript

Web & Frameworks: React.js, Next.js, Express.js, MERN Stack, Tailwind CSS, shadcn/ui, RESTful APIs

Distributed & Systems: RESTful API Design, Client-Server Architecture, Scalable System Design,

Webhook Integration & APIs: Gemini API, API Integration

Databases & ORM: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Vercel, Netlify, Pabbly (Workflow Automation)

Core CS: Data Structures, Algorithms, OOP's

PROJECTS

AI Mock Interview Platform [Live Deploy](#)

Feb 2025 – July 2025

Next.js, React, Tailwind CSS, PostgreSQL, Drizzle ORM, Gemini API, RESTful APIs

- Architected full-stack AI-powered interview simulation platform serving end-to-end user workflows from authentication to session storage
- Integrated Google Gemini API to dynamically generate domain-specific interview questions and intelligently evaluate user responses in real time
- Designed scalable PostgreSQL schema with Drizzle ORM to efficiently store and retrieve interview sessions across concurrent users
- Implemented secure authentication and RESTful API layer supporting multi-user data integrity and session management

Destiny Unlocked – AI Numerology Platform [Live Deploy](#)

Feb 2026 – March 2026

React, TypeScript, Vite, Tailwind CSS, shadcn/ui, Supabase Edge Functions, Pabbly Webhooks

- Built a production-ready AI-powered numerology lead generation platform with real-time personalized insights delivered via Supabase serverless Edge Functions
- Engineered a multi-step lead capture form with webhook integration (Pabbly) for automated CRM workflow triggering and user data pipeline management
- Integrated AI-generated numerology reports using server-side logic, processing user name and date-of-birth inputs to produce 10-point personalized life insights

ExamMate – Centralized Study Platform

Ongoing

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Building a scalable college-focused web application with multi-user access to centralized study materials and exam resources
- Designed RESTful APIs for efficient data retrieval and resource sharing, applying software design principles for maintainability and extensibility

PROFESSIONAL EXPERIENCE

Web Development Intern | Internpe

2024 (1 Month Summer Internship)

- Delivered four production-ready web projects (Calculator, E-commerce Website, To-Do App, Connect Four Game) applying software design patterns and iterative development
- Strengthened proficiency in DOM manipulation, responsive design, and interactive UI development using HTML, CSS, and JavaScript

CERTIFICATIONS

Coursera (Feb – Dec 2023): [Python Basics](#) | [Python for Data Science, AI & Development](#) | [Introduction to Artificial Intelligence](#)

ADDITIONAL INFORMATION

Languages: English (Professional), Hindi (Native), German (Basic) **Soft Skills:** Problem-Solving, Team Collaboration

Interests: Competitive Programming, AI Research, Technology Trends **Achievements :** [LeetCode](#) Knight Badge (max streak of 300+ days).
